Botanical Gardens Trail Map

The USF Botanical Gardens offers a variety of gardens and habitat types through which to stroll. The trail begins at the parking area. Current collections include: fruit trees and palms from around the world, temperate forest, carnivorous plants, tropical and subtropical trees and shrubs, as well as plant species found in Florida's upland habitats.

PLEASE BE MINDFUL OF THE FOLLOWING:

- Flowers, fruits, seeds, leaves and plants should be left for all to enjoy.
- Supervise children closely, especially near water.
- Do not swim, wade, or fish in the lake or ponds.
- Please respect the privacy and quiet of others.
- Dogs must be leashed and their droppings must be removed.
- Watch your step.
- Place trash in proper receptacles.
- Respect and enjoy the Gardens.
