

# Benefits of Membership

Your gift will support the Garden's programs of education and horticulture and ensure that these programs continue to benefit the community.

## All members receive the following benefits:

- free admission to garden plant sales
- quarterly newsletter
- 10% discount on all purchases from the Elizabeth W. Johnson Plant Shop
- 20% discount off all workshop fees
- annual rare plant distribution to members

## Express Admission Program

Members receive early and free admission to both the Spring and Fall Plant Festivals as follows:

- **Student/Individual:** one adult
- **Family/Dual:** two adults and four children under age 18
- **Patron/Life:** Six adults and four children under age 18

*Epidendrum atropurpureum* var. *roseum*.  
Reed stem orchids bloom year-round and are easy to grow.

### *Amorophophallus paeoniifolius*.

The foul-smelling flowers of this member of the calla lily family attract flies, which mistake its smell for that of a dead animal. As they travel from one plant to another, the carrion-seeking flies transfer pollen between plants, facilitating pollination and seed production.

## Yes, I'd like to be a member.

## Volunteer Program

Another way to support the USF Botanical Garden, make new friends and learn about horticulture and gardening is to donate your talents as a volunteer.

**Yes, please contact me about volunteering.**
